App Overview

A React Native Messages Directory app built with Expo SDK 54 and TypeScript. The app displays 6 personal message categories. Tapping any category opens a dedicated screen showing 4 stored messages for that category. The app features a custom dark-navy editorial design with animated card entrances and per-category color-coded screens.

APP OVERVIEW

Technology	Version	Purpose
React Native	SDK 54	Mobile UI framework
Expo	54.0.0	Build toolchain & dev server
TypeScript	5.x	Type-safe JavaScript
React Navigation	7.x	Screen navigation
Native Stack	7.x	Stack-based navigation
Node.js	20.11.1	JavaScript runtime
Android Studio	2025.3	IDE & emulator
Pixel 4 Emulator	API 30	Test device

APP SCREENSHOTS

12:24

← Back

You

4 stored messages

01 Believe in yourself — you are capable of amazing things.

02 Every day is a new chance to grow and improve.

03 You are enough, exactly as you are right now.

04 Your potential is limitless — keep pushing forward.

12:24

← Back

Home

4 stored messages

01 Home is where your story begins.

02 The warmth of home is found in the people inside it.

03 There is no place like home.

04 Home: where every corner holds a memory.

12:24

← Back

Love

4 stored messages

01 Love is not something you find. Love is something that finds you.

02 The best thing to hold onto in life is each other.

03 Love is composed of a single soul inhabiting two bodies.

04 Where there is love, there is life.

12:24

← Back

Family

4 stored messages

01 Family is not an important thing — it is everything.

02 The love of family is lifes greatest blessing.

03 Family: where life begins and love never ends.

04 In family life, love is the oil that eases friction.

12:24

← Back

Friends

4 stored messages

01 A good friend knows all your stories. A best friend lived them with you.

02 Friends are the family we choose for ourselves.

03 True friendship comes when silence between two people is comfortable.

04 A real friend is one who walks in when the rest of the world walks out.

```

How to Configure and Run

Prerequisites

- macOS 12 Monterey (or newer)
- Node.js v20.11.1
- Android Studio 2025.3 with Pixel 4 API 30 emulator
- Expo Go app (SDK 54) installed automatically on emulator.
- Git (for cloning from GitHub)

Steps to Run

- Clone or unzip the MessageDirectory2 project folder.
- Open Android Studio.

Open the MessageDirectory2 project via File → Open.

- Start the emulator: open Device Manager (phone icon on right sidebar)
- Click the Play button next to "Pixel 4 API 30".
- Wait for the Android home screen to appear.

- Open the Terminal panel inside Android Studio: View → Tool Windows → Terminal.
- Navigate to the project: `cd ~/MessageDirectory2`.
- Install dependencies: `npm install --legacy-peer-deps`
- Start the development server: `npx expo start --clear`
- When the QR code appears, press "a" to open on the Android emulator.
- The Message Directory app will launch automatically on the Pixel 4 emulator.
